Education

Bundelkhand Institute of Engineering & Technology, Bachelor of technology in Information Technology — Nov 2022 – May 2026

- **GPA**: 8.0
- **Coursework:** Machine Learning,Artificial Intelligence,Database Management System, Data Analytics, Cyber Security.

Technical Skills

- **Languages:** Python, C++, SQL, C
- **Frameworks & Libraries:** Scikit-learn, TensorFlow, PyTorch, Hugging Face Transformers, SpaCy, OpenCV
- **Machine Learning:** Regression, Classification, Time Series Forecasting, Anomaly Detection, Text Summarization
- **Backend & APIs:** FastAPI, Flask, RESTful API Design
- **Tools & Platforms:** Git, Docker, Postman, Jupyter Notebook, Google Colab

Projects

EduTrackAI – Compliance Monitoring System REPO

- **Built** an AI-powered pipeline that extracted structured data from 500+ institutional documents with 98% accuracy, automating document verification via a custom Document Sufficiency Score (DSS).
- **Designed** anomaly detection logic using semantic validation and Isolation Forest to identify compliance violations, reducing manual verification effort by **70%**.
- **Delivered** a scalable full-stack system with real-time dashboards, supporting concurrent compliance analysis across **50+** institutions.

AutoScholar – Research Paper Summarizer & Question Generator DEMO

- **Developed** an AI-based application that summarizes academic research papers in real time, reducing reading time by **45%**.
- **Implemented** abstractive summarization and question generation workflows, achieving a **BLEU** score of **0.72** to improve study efficiency.
- **Improved** user adoption by **30%** through a streamlined interface and API-driven modular design.

AgentCoco – Autonomous AI Agent for Task Automation LINK

- **Engineered** an autonomous AI agent to analyze legacy codebases and generate structured documentation, reducing turnaround time from hours to under **60** seconds.
- **Optimized** token efficiency by **40%** using context compaction and dependency graph mapping techniques.
- **Implemented** a secure tool-execution framework to ensure safe file operations and prevent data leakage.

Certifications & Achievements

- **Solved and optimized 500+** Data Structures and Algorithms problems across **LeetCode** (Top **13%**), **CodeChef**, and **Codeforces**, demonstrating strong solving and algorithmic thinking. Profile
- **Earned** the **Oracle Cloud Infrastructure AI Foundations Associate** certification, **demonstrating** proficiency in core AI/ML concepts and cloud-based AI services. Certificate
- **Tested and validated 20+** RESTful APIs using **Postman**, ensuring correctness, reliability, and seamless backend integration. Certificate
- **Led a team that Secured Top 6** position at **Smart India Hackathon 2025** (Software Edition) by **delivering** an AI-based compliance monitoring system (**EduTrackAI**) evaluated at a national level. View Post
- **Completed** the **AI Agents Intensive Program** by **Google** (via **Kaggle**), focusing on autonomous agents, tool orchestration, and LLM-driven workflows. Certificate
